

200 Km/h RWD Electric Vehicles With Efficiency Permanent Magnet Synchronous Motor BEV Battery

Our Product Introduction

for more products please visit us on petrolhybridcars.com

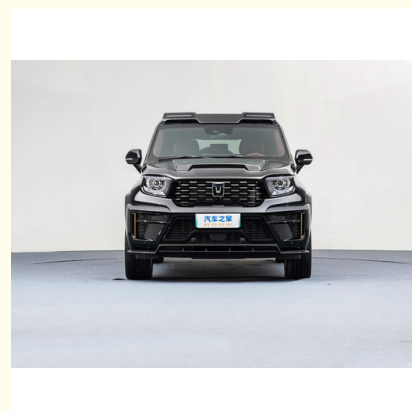

Basic Information

- Place of Origin: China
- Brand Name: Tank
- Model Number: 700
- Minimum Order Quantity: 1
- Payment Terms: T/T

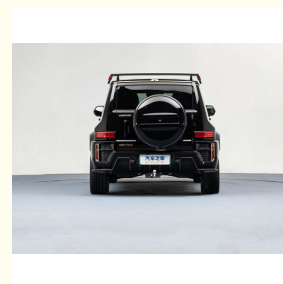

Product Specification

- Top Speed: 200 Km/h
- Drive Mode: Rear Wheel Drive
- Interior Features: GPS, Bluetooth, Touchscreen
- Fuel Economy: High
- Tire Size: 235/45 R19
- Motor Type: Permanent Magnet Synchronous Motor
- Transmission Type: Automatic
- Suspension Type: Independent Suspension
- Highlight: **BEV Battery RWD Electric Vehicles,
200 Km/h RWD Electric Vehicles,
200 Km/h rwd electric cars**

Product Description

Product Description:

The BEV Battery Electric Vehicle features a Permanent Magnet Synchronous Motor that provides a smooth and powerful driving experience. This motor is known for its high efficiency and low maintenance, making it an ideal choice for electric vehicles. Additionally, the BEV Battery Electric Vehicle is equipped with a state-of-the-art Infotainment System that is compatible with both Android and iOS devices. This system includes GPS, Bluetooth, and a Touchscreen display, making it easy and convenient to stay connected while on the road.

The interior of the BEV Battery Electric Vehicle is designed for maximum comfort and luxury, with Leather Seats that provide a premium feel and exceptional durability. The interior features of this vehicle are also designed with convenience and functionality in mind, with GPS, Bluetooth, and Touchscreen controls that are easy to use and intuitive.

In terms of performance, the BEV Battery Electric Vehicle is a Rear Wheel Drive vehicle that offers excellent handling and stability. This drive mode is specifically designed to provide a smooth and responsive driving experience, making it ideal for drivers who are looking for a sporty and exciting ride.

Overall, the BEV Battery Electric Vehicle is an exceptional electric car that is designed to provide drivers with the ultimate in performance, efficiency, and style. Its advanced technology and luxurious interior make it an ideal choice for anyone who is looking for a high-quality electric vehicle that is both practical and stylish.

Features:

Product Name: BEV Battery Electric Vehicle

Tire Size: 235/45 R19

Connectivity: Bluetooth, Wi-Fi, GPS

Charging Capacity: High

Infotainment System: Android/iOS Compatible

Exterior Design: Aerodynamic Design

Electric Car Lithium Ion Battery

Technical Parameters:

BESS Battery Energy Storage System	BEV Battery Electric Vehicle
Top Speed	200 Km/h
Drive Mode	Rear Wheel Drive
Motor Type	Permanent Magnet Synchronous Motor
Connectivity	Bluetooth, Wi-Fi, GPS
Interior Design	Leather Seats
Exterior Design	Aerodynamic Design
Interior Comfort	High
Charging Port	Type 2
Infotainment System	Android/iOS Compatible
Charging Capacity	High

Applications:

One of the key applications of the Tank 700 is in the field of Electric Car Lithium Ion Battery technology. This product is designed to work with a range of different Electric Car Lithium Ion Battery systems, providing reliable and efficient power for a variety of different applications. Whether you are looking to power a small electric vehicle for personal use or a larger commercial vehicle for business purposes, the Tank 700 is a great choice.

Another important application of the Tank 700 is in the field of BESS (Battery Energy Storage System) technology. This product is designed to work with a range of different BESS systems, providing reliable and efficient power storage for a variety of different applications. Whether you are looking to store energy for your home or business, or you need a reliable power source for a remote location, the Tank 700 can provide the power you need.

The Tank 700 is also an excellent choice for anyone looking for a high level of interior comfort and convenience. This product features a range of advanced features and technologies that make driving a pleasure, including a comfortable and spacious interior, an advanced infotainment system that is Android/iOS compatible, and a range of other features designed to enhance your driving experience.

In addition to its impressive interior features, the Tank 700 also boasts a sleek and aerodynamic exterior design that is both stylish and functional. This product is designed to provide exceptional fuel economy, with a powerful Permanent Magnet Synchronous Motor that delivers exceptional performance while minimizing energy consumption.

Overall, the Tank 700 is an exceptional product that offers exceptional performance and reliability in a range of different applications.

Whether you are looking for a powerful and efficient Electric Car Lithium Ion Battery, a reliable and efficient BESS system, or a comfortable and convenient driving experience, the Tank 700 is a great choice. So why wait? Place your order today and experience the power and performance of the Tank 700 for yourself!
